Tech Tips: Older iPads, EBSCO

As of Friday, Oct. 1, 2021 some users with older electronic devices are no longer able to use the Libby app or access [NH Downloadable Books](#) on those devices. Here is the quickest way to check if the iPad is incompatible:

- Open the Settings app
- Tap General
- Tap About
- View the Software Version or Version

If the software version is 9.x or lower, the device is no longer compatible. You can try updating the device, but if device states that the software is already up to date, there is no more to be done to resolve the issue.

The NH EBSCO contract for periodicals articles has expired. However, NH has renewed their NoveList Plus products. (somewhat like Goodreads). Ask us how to log in.
