Homer & Langley: A Special Tale by Roger Robbins

The Collyer Brothers. Homer is blind; Langley is physically and mentally damaged by war wounds. Their parents are dead - quickly one, then the other - of Spanish Flu.

The brothers are left alone in their parents' Fifth Avenue brownstone. As the years pass, their lives turn inward, cut off from the world. Langley enthusiastically collects: newspapers and appliances and books and piles of detritus that climbs the walls and blocks the doors. A Model T has pride of place in the living room.

Ever present in [Homer and Langley \(audiobook at Overdrive\)](#) is the master touch of author **E. L. Doctorow**. In the mess that life often presents, Doctorow finds - and quietly exalts- those veins of caring and compassion that one does not expect to see. Langley loved Homer and tried to make his life bearable, even as Langley's hoarding suffocated them both. Worth reading and re-reading
